COMMUNICATE

Every transition carries evidence, an owner and a chained receipt.

The screenshot displays the CaseZero dashboard for 'COMPLAINT OPERATIONS / MALAYSIA'. The main heading reads 'The complaint arrives. The clock starts here.' Below this, a paragraph states: 'CaseZero turns email complaints into verified, policy-governed resolutions—with every model call, bank check, financial gate, letter, and deadline preserved as evidence.' Two buttons are present: 'Explore the operating workspace' and 'See the first-shift guide'. A sidebar on the right, titled 'STAKEHOLDER READY', features 'Axiom by CaseZero' and describes it as 'The operating agent that must show its authority before it acts.' A table in the sidebar shows performance metrics: Baseline (90 min / case), Target (< 05 min PASS), and Team (05 operators). At the bottom, a section titled 'A FIRST SHIFT, ALREADY ARRANGED' includes the text 'Know what needs you. Trust what does not.' and a descriptive paragraph: 'The workspace starts with decisions, not agent internals. Rehearsal mode keeps every action synthetic while preserving the real operating vocabulary.'

CaseZero

COMPLAINT OPERATIONS / MALAYSIA

The complaint arrives. The clock starts here.

CaseZero turns email complaints into verified, policy-governed resolutions—with every model call, bank check, financial gate, letter, and deadline preserved as evidence.
